# SURGERY SECRETS OF THE STARS

THEN

NOW

## BLAKE LIVELY

Not to be a gossip, but teenage Blake may not have been welcome in the Upper East Side's most exclusive cliques before her makeover. In addition to fixing her teeth, Dr. Yagoda estimates that Blake, 29, has had a nose job and fillers in her upper lip to even out her smile... but that's one secret she'll never tell.

THEN

NOW

## CARROT TOP

OK, so maybe the Las Vegas magician, 51, never had movie-star looks, but Dr. Shafer thinks cheek fillers and an overly aggressive brow lift — possibly done to help with his hooded eyelids — pushed Carrot Top into freakshow territory.

THEN

NOW

## COURTENEY COX

The *Friends* actress, 52, may have been blessed with good skin, but her trout mouth and overfilled cheeks have ruined her attractively sharp features, says Dr. Yagoda. Just call it "The One Where She Messed Up Her Face."

THEN

NOW

## SHARON OSBOURNE

Ozzy's other half went from frumpy to foxy, at 64, thanks to a well-done series of procedures. "I would estimate a face and neck lift, upper and lower eyelid surgery, brow lift, nose reshaping, fillers to the lips and cheeks, and laser resurfacing of her skin," says Dr. Schulman, tallying the total at upwards of \$75,000. "She wasn't too aggressive and it turned out very well — she looks great."

THEN

NOW

## DEMI MOORE

Cheeks droop and flatten over time, so is Demi, 53, a genetic anomaly? Not so much. "Her cheekbones are not only fuller but higher possibly from an implant," explains Dr. Hadeed. "Her chin is also more defined which could be the result of a chin lift or implant."
